

FAMOUS HAYWOOD TRIAL BEGINS AT BOISE, IDAHO

Court Opens Promptly and at a Nod From Judge
Wood the Great Legal Battle Has Begun

THERE IS A GREAT ARRAY OF LEGAL TALENT

Employed by Both the State and the Defendant the Lat-
ter Being Supported by Many Labor Unions
Throughout America.

Accused, William D. Haywood, secretary-treasurer of Western Federation of Miners.
Charge, murder in first degree.
The victim, former Governor Frank Steunenberg, who was blown to pieces by a bomb while entering his home at Caldwell on the night of December 30, 1905.
Time likely to secure jury, days to three weeks.
Number of witnesses subpoenaed by prosecution, 34; defense 64.
What state will try to prove: That Haywood with other officers of the Federation, was a member of the inner circle which had for its object rule by terrorizing in the mining regions; that he planned many murders and that he and his associates paid Harry Orchard to kill Steunenberg in revenge for his activity against the Federation.
What the defense will try to prove: That the arrest of Haywood and his associates was a part of a conspiracy on the part of the mine owners and Pinkerton detective agency to get the officers of the union out of the way as then the union could be broken up; that Orchard is being paid a large sum to perjure himself to swear away the life of the accused and save his own.
Probable cost of the trial, \$500,000.
Probable duration, three to four months.

Boise, Idaho, May 8—"Sheriff, bring in the prisoner."

In a voice which penetrated every corner of the large, well filled court room, District Judge Fremont Wood shortly after 10 o'clock today, gave instructions to Sheriff Hodgkin, and the most famous murder trial in the history of the west was on.

The sheriff departed a few moments later and returned escorting a heavy, smooth shaven, strong featured man who, walking with the light step of a boy, passed through the crowd with difficulty and took a seat at the head of the table reserved for counsel for the defense. This was William D. Haywood an official of the Western Federation of Miners, and alleged by the prosecution to be the head and front of the so-called inner circle which was responsible for the reign of terror that prevailed in the mining regions for years, culminating on December 30, 1905, in the murder of former Governor Steunenberg, who was blown to pieces by a bomb as he was entering his home in Caldwell.

If Haywood felt any fear at his present situation he did not indicate it by his manner. It is easy enough to understand that he was a power among his fellows while he had his liberty. His face is that of a leader of men, and once seen is not likely soon to be forgotten. He was dressed in a suit of dark material with turn down collar and a new black string tie, and his hair had been carefully brushed. Sitting beside his lawyer he was easily the most noticeable of the group, and it was hard indeed to realize that this man is charged with plotting the most dastardly crime in the criminal annals of Idaho. There was not the slightest trace of nervousness in his make up, but his stern, set face indicated that he realized fully the authorities were determined to fix the Steunenberg murder on him and his two associates, Charles H. Moyer and George A. Pettibone, both of whom also are in jail here awaiting trial.

There certainly was nothing in Haywood's demeanor that would lead one to believe that he could counsel

murder. His whole appearance was that of a man conscious of his own innocence, and confident the final outcome would demonstrate that a great mistake had been made, and

WILLIAM D. HAYWOOD.

that he would be restored again to his devoted family and loyal followers.

It did not take the court long to get down to work—a nod from Judge Wood, and Sheriff Hodgkin, acting as crier, made the usual announcement and the trial was on. First came the question of selecting the jury, and while the anxious ventremen were trying to impress Judge Wood with the fact that they were not qualified to serve, the spectators had a chance to look over the noted figures in the case.

Seated at the table with Haywood were his counsel, all men with recognized reputations and experts in criminal law. First was the emaciated figure of James H. Murphy of Denver, chief attorney of record and from its organization counsel for the Western Federation of Miners. Then there was E. F. Richardson, whose knowledge of law is conceded to be great; C. S. Darrow of Chicago, who has served union labor in many famous cases; Fred Miller of Spokane and John F. Nugent of Boise.

It was plain to be seen that nothing was to be left undone to safeguard the interests of the accused. And this array of eminent counsel will be needed before the trial finally is concluded.

Determined to secure conviction if possible Governor Gooding has caused to be retained the best available lawyers in the capital.

The chief counsel is J. H. Hawley, a leading figure in his chosen profes-

sion, a jury lawyer pure and simple, whose eloquent voice has often swayed a doubting twelve and swung them around to his own belief. He will be ably assisted by the new senator from Idaho W. E. Borah. Borah is one of the state's foremost attorneys and a merciless cross examiner who has few equals. Associated with these two are O. M. Vanduyne and W. A. Stone, of Caldwell, both excellent attorneys.

Altogether the legal talent on both sides is the best obtainable. That it will take a long time to secure a jury was shown as soon as the examination of the first veniremen was begun. Judge Wood gave the attorneys the widest latitude in their examination of talesmen with the result that an enormous amount of time was consumed. The questions asked dealt with every phase of the case, people interested in it and lawyers concerned. The questioning was no monotonous in the extreme and tiresome alike to lawyers and spectators, but it was plain no chances were going to be taken of a mistrial.

NO SOCIALISTIC MEETINGS.
"No Socialistic meetings will be permitted in Boise while the present trial is on progress," declared Mayor Haines to Dr. Herman F. Titus of Toledo, Ohio, late Wednesday night in the city hall, where Titus had been summoned by the police chief to meet the mayor. Titus is editor of the Socialistic News, published in Seattle, but formerly published at Caldwell. He was in Boise several months ago and his speech displeased the mayor. Consequently when he arrived Wednesday night the mayor sent for Titus and this interesting colloquy followed:

"We want no public meetings," declared the mayor, "and we won't tolerate them. While this trial is progressing the city will co-operate with the county authorities in keeping order and preventing unseemly conduct. We request you to refrain from public speech making."

"As your honor says," replied Titus, "I myself feel that the time for" (Continued on Page 2, 2d Col.)

SERIOUS RIOT IN NEW YORK

New York, May 9.—In the long-shoremen's strike today a serious riot occurred on the White Star docks. Three hundred strikers were attacked by 150 strike breakers. Clubs were freely used and finally the nonunion men fled up side streets.

In spite of the efforts of the police to protect them, scores of men were badly hurt before the police could quell the disturbance.

Comment on Irish Bill.
London, May 9.—The United Kingdom has had two full days to digest Mr. Birrell's Irish bill, but not the smallest note of enthusiasm for the proposed council has been heard in any quarter. The proposed measure is recognized to be a faint-hearted attempt to redeem campaign promises. Mr. Balfour's taunt of Mr. Birrell, that his heart was not in his work, seems to have hit the mark. Ireland appears to be even less pleased than England. It is expected that the proposed Nationalist convention will endorse the plan with a lively scoring of the government for not giving a greater degree of home rule.

Paper Plant Burned Out.
St. Louis, May 9.—Fire mysteriously started in the attic of the four-story warehouse of the Graham Paper company, and the damage wrought to the building and stock by fire and water is estimated at over \$50,000. Pipe-man William Klein was overcome by the dense smoke and collapsed. His condition is said to be serious.

SLAYER OF THE OLNEY FAMILY MAKES CONFESSION.

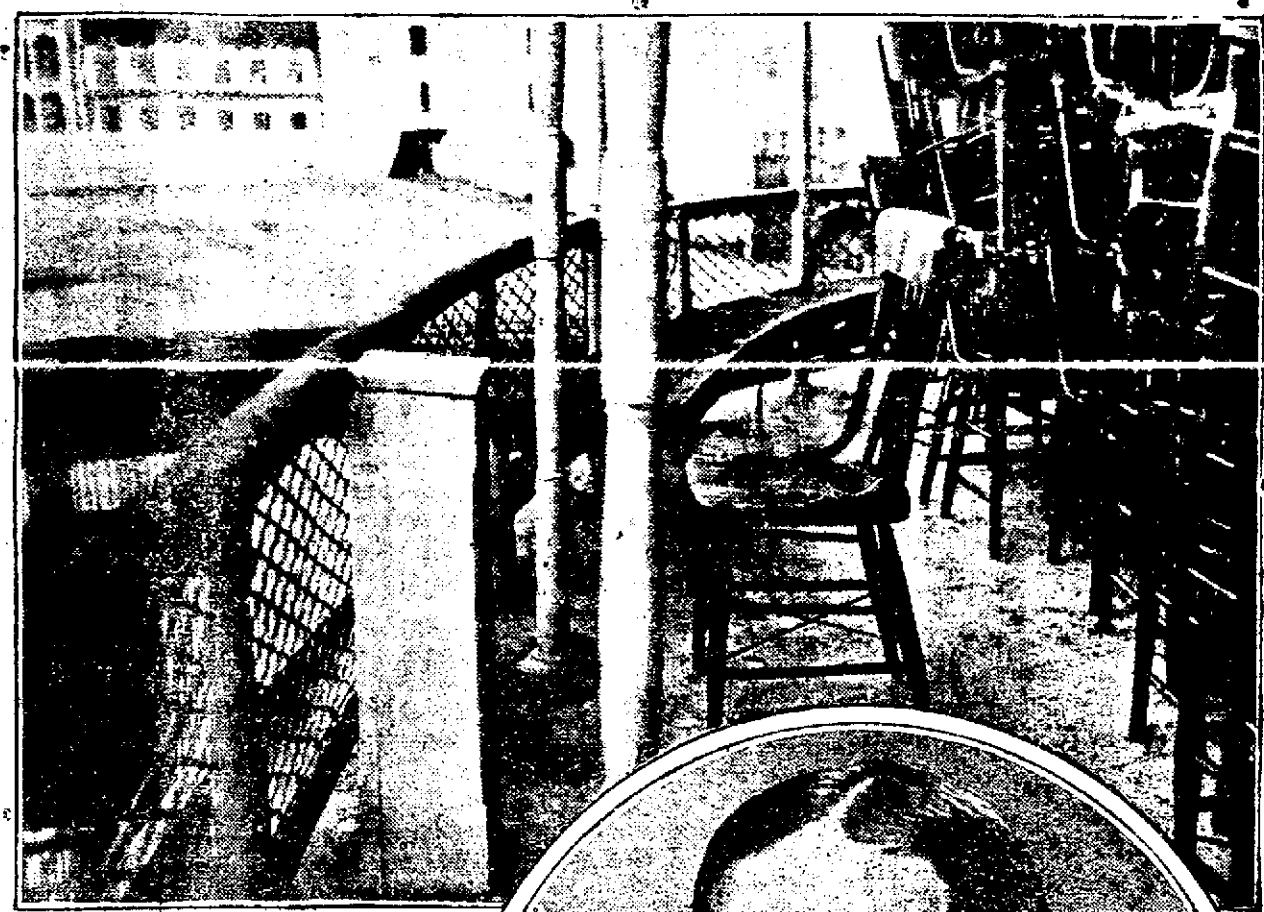

CHAS. H. ROGERS AT THE OLNEY FARM

CHAS. H. ROGERS AND OFFICERS SEARCHING FOR WALLET

MIDDLETOWN, N. Y., May 9.—Charles H. Rogers, who is lodged in jail here, charged with the murder of Willis C. Olney, Fred R. Olney and little Alice Ingerrick, at a farm near this city on October 6, 1905, has made a full confession to Sheriff Decker, Chief of Police McCoach and Under Sheriff Hoot. The confession was made while the officers were on their way here with the prisoner from Los Angeles, Cal. Rogers said he believed that the Olney brothers had large sums of money hidden in the house. His sole object was robbery.

ERNEST W. HUFFCUT, WHO ENDED HIS LIFE, AND SCENE OF TRAGEDY

WHERE THE BODY OF E. W. HUFFCUT WAS FOUND

NEWARK'S LIVE ONES

It was eight years ago this month that Robert W. Smith came to Newark from Alexandria and took possession of the drug store located on South Park, at the Second street corner, opposite the postoffice. Mr. Smith had been operating a drug store in Alexandria since the spring of 1884.

His present stand has been a drug store site for many years.

Mr. Smith has long since been regarded as one of Newark's enterprising citizens. He is a stock holder and director in the Newark Telephone company and has always been a "Newark booster."

Mr. Smith is an admirer of good

horse flesh and owns four fine horses himself, all of which have good track records.

He is a popular member of the lodge of Elks, is a Mason and a Modern Woodman.

Drought in Cuba.
Havana, May 9.—Reports received here from all parts of the island show an increase in the devastation being wrought by forest fires, which are the result of the long continued drought. Furthermore, cattle are dying by the thousands, the local rains in various sections being insufficient to afford relief. Cattlemen say the mortality of the animals will be vastly augmented after the rains begin, owing to the cattle gorging on rank fresh herbage.

SOCIETY WOMEN ACT AS NURSES

At Zanesville Hospital Following the
Trouble Between Matron and
Surgeon.

Zanesville, O., May 9.—Following the resignation of Miss Mary Jamieson as matron of the Zanesville city hospital, the entire force of nurses walked out on a strike. The board of managers of the institution, consisting of eight prominent society women, at once donned the caps of the nurses and, under the leadership of Miss Anna Buerhaus, have taken charge. The trouble originated in a clash of authority between the matron and Dr. J. G. F. Holston, one of the leading supporters of the hospital.

Creep Out of Bounds.
Evansville, Ind., May 9.—Heavy rains have fallen throughout this section during the past 36 hours, and many creeks are swollen twice their normal size and the Ohio river is rising. Green river is on a rampage, and many valuable logs will be lost. Several bridges are reported washed away.

Public Utility Bill Signed.
Jefferson City, Mo., May 9.—Governor Folk signed the Cooper public utility bill, giving cities the right to regulate the rates charged by corporations for public service. The measure becomes a law 30 days after the adjournment of the special session of the legislature now assembled.

All Deeply Disappointed.
Dublin, May 9.—The fate of Mr. Birrell's Irish bill is regarded here as depending entirely on the attitude taken by the proposed Nationalist convention. There is no doubt that the Nationalists rank and file are deeply disappointed in the proposed measure, and it will require all John T. Redmond's influence to obtain from the conference a resolution in its favor.

Taft Hears the News.
Washington, May 9.—Secretary Taft, upon being shown the dispatches from Cincinnati containing the statements accredited to Senator Foraker and George B. Cox, relative to his candidacy for the presidency and the situation in Ohio, declined to discuss them.

GENERAL KUROKI WAS AT PITTSBURGH

With General McArthur and Was Met
There by the Japanese
Ambassador.

Pittsburg, May 9.—General Kuroki of Japan, accompanied by General Arthur MacArthur of the American army and their staffs, spent a few hours in this city. Mayor George W. Guthrie and a reception committee met the train at the Union station, and the visitors were taken to the Allegheny County club, where a dinner was given in honor of General Kuroki. The party was joined here by Baron Aoki, the Japanese ambassador at Washington, and his staff.

J. J. RYAN ARRIVED IN AMERICA TODAY

Paris, May 9.—John J. Ryan of Cincinnati, well known in connection with Ohio politics and theatrical matters, is in the city today. Mr. and Mrs. Ryan and their daughter are completing a tour of the world. They were passengers on the steamship Dakota, which was lost on the rocks near Schinadama, Japan. They have visited Japan, China, India the Holy Land and Egypt.

Will Assist Jamaicans.
London, May 9.—It was officially announced that the British government had decided to make Jamaica a gift of \$50,000 and to guarantee a Jamaican loan of \$100,000 to assist the inhabitants of Kingston to recover from the effects of the recent earthquake.

Revival of Disinfectants.
Revival of disinfectants have caused the central school, with 400 pupils, to be closed at Kent, O. Two children died with the disease last night and others are ill.

Steve Pearce, a well-known turpentine operator of Crossland, Ga., was found dead in bed at a hotel at Valdosta, Ga., his throat cut and a knife in his hand.

BIG LINER IS ON MUD BANK OFF NEW YORK

VESSEL ON WHICH ANDREW
CARNEGIE AND COUNTESS
OF YARMOUTH

ARE FAMOUS PASSENGERS

Is Disabled and All Efforts of Tugs
Are Unavailing to Relieve the
Situation.

(Bulletin.)

New York, May 9.—The big White Star liner Baltic, which went aground in the lower bay last night while outward bound, is still fast in the mud off Sandy Hook. A fleet of tugs is working to pull the liner off the bar, but little hope is expressed that she can be floated before night at the best as it is now low tide. The last seen of the Baltic she had listed heavily to starboard. Her position is such that if a heavy sea should start running she would be in great danger. Owing to the heavy fog which still hangs over the bay, the Baltic is a constant menace to traffic as she nearly blocks the ship channel.

Every hour the position of the big liner is growing worse as she is settling deeper and deeper in the mud. One effort was made to float her at high tide at daylight but it failed. It is feared that by evening when the tide will be high again she will be so firmly imbedded that she cannot be moved unless her cargo is lightened.

The Baltic left her dock shortly after 3 o'clock yesterday and passed Sandy Hook at 4:30. A heavy fog prevailed and the pilot in attempting to avoid running down an incoming tank ship ran the Baltic aground. There are many notables among the Baltic passengers, including Mr. and Mrs. H. H. Rogers and Mr. and Mrs. Andrew Carnegie and their daughter Margaret, and the Countess of Yarmouth, sister of Harry Thaw.

FIFTEEN HURT

WHEN A C. & Q. SUBURBAN
TRAIN JUMPED THE TRACK
AT CHICAGO.

Accident Happened When Train Was
Running at a High Rate of
Speed.

Chicago, May 9.—Fifteen or more people were injured, some seriously, this morning when a Chicago, Burlington and Quincy suburban train, heavily laden with city bound passengers, jumped the track at Millard avenue.

The train was running at a high rate of speed as it approached the city. The engine, apparently striking an obstruction left the rails, turned turtle and plowed its way through the soft prairie soil.

Engineer Newland and his fireman made an effort to jump, but were caught beneath the tender and badly injured. The first coach turned on its side and crumpled like card board. The following cars buckled and piled on top of the first coach and engine.

Five women in the first coach are said to have been seriously and perhaps fatally injured. They were removed by rescuers to neighboring houses, and later taken to St. Anthony's hospital. So far as ascertained no one was killed outright. Those in the rear coaches suffered no injuries beyond scratches, bruises and shock.

Two of the victims of the wreck are said to have died on the way to the hospital.

The fire department was called out to extinguish the flames, which started as a result of the wreck.

WRECK ON C. & D.
Hamilton, O., May 9.—One man was killed and three injured in a wreck on the Cincinnati, Hamilton & Dayton railroad at Jones' Station, six miles south of Hamilton today. Richard King of Ivorydale, the fireman of the engine, was the victim.

Queen of Ocean Liners.
Liverpool, May 9.—The White Star line steamer Adriatic left here for New York. The Adriatic was launched at Belfast last September. She has an overall length of 725 feet and a gross tonnage of 25,000. She has spacious accommodations for about 3,000 passengers, besides quarters for a crew of about 350 men. Many unique features have been introduced in the passenger accommodations, and the builders claim that she is unrivaled in her class. She cost \$3,750,000.

Fire, supposed to be of incendiary origin, destroyed the business section of Barnesboro, 40 miles east of Pittsburg. Loss is estimated at \$250,000.

HAYWOOD TRIAL

(Continued from page 1.)

speaking has gone by, and as you insist I will promise to do my best not to make any trouble."

The two men parted on friendly terms and the incident disclosed the tense feeling everybody is laboring under. The real significance of the matter, however, is not this. He merely is a pawn in the game.

Eugene Debs declares he is coming here as soon as the jury is selected, to watch the proceedings. It was decided at a meeting of a committee

CHARLES H. MOYER.

of citizens today that the mayor be deputed to see Debs, as soon as he arrives and warn him he must make no public speeches along socialistic lines during the trial; also to be careful of his private utterances. If not they will insist that the mayor compel him to leave town.

The feeling on the surface is exceedingly friendly, but underneath it is growing daily more bitter and before the trial finally ends an outbreak may come.

The charge of conspiracy to murder brought in connection with the assassination of Frank Steunenberg, a former governor of Idaho, by the Idaho state authorities against Chas. H. Moyer, William D. Haywood and George A. Pettibone is one that has been agitating the courts of Colorado and Idaho for nearly a year and a half. Moyer was the president, Haywood the secretary-treasurer, and Pettibone was a member of the executive committee of the Western Federation of Miners. When ex-Governor Steunenberg of Idaho, was murdered, on December 30, 1905, by the explosion of a dynamite bomb attached to the gate opening into the yard of his home, the Western Federation of Miners was said to be very

GEORGE A. PETTIBONE.

bitter against him. The Idaho authorities claimed that they had obtained evidence showing that the Western Federation of Miners had, aided by funds from its treasury, financed the assassination of Steunenberg. The three men still held for trial on this charge were then in Denver, Col. Charges of conspiracy to murder which were brought against them were dismissed by the Colorado courts on January 6, 1906, or just about a week after the death of Steunenberg. Then an attempt was made to get Governor McDonald of Colorado, to issue extradition papers to the Idaho police for the three men, but this was refused by the Colorado governor. On February 18, 1906, the men were taken out of jail in Denver and

smuggled on a special train into Idaho without the knowledge of the Colorado authorities. This caused serious trouble between these two states. On March 22 of this year the case had only progressed to a point where the accused demanded a change of venue, which was denied. Governor Steunenberg had been governor of Idaho for two terms, from 1897 to 1901. He lived in Caldwell, Idaho, and left a widow and three children. Both his legs were torn off by the explosion of the bomb and he lived only 20 minutes after he was blown up.

RHEUMATISM BADLY CRIPPLES A BALDWINVILLE FARMER.

URICO QUICKLY CURED HIM Treated Two Years With a High-Priced Physician With No Success.

Mr. Frank Howe, a prominent farmer in the town of Van Furs, says: "I visited the best physicians in this country, who treated me for about two years for rheumatism. I spent in that time several hundred dollars and seemed to grow worse instead of better each day. Held on crutches and forced to drive to the train and hobbling to the doctor's office became very discouraging, let alone the sleepless nights and fearful hours of pain. Being advised by a friend I purchased Smith's Urico-O prescription, took it home and used it that day as directed. Those fearful scathing pains left me, my blood seemed to let loose and flow freely. I felt different and knew the next morning I had found a cure as I slept and rested well all that night. Something I had not done before in two years. I used in all six bottles of Urico-O and have never felt a return of the disease, had no use for crutches or cane since the first day's treatment. I have since recommended Urico-O to hundreds of friends and acquaintances and in every instance it gave remarkable relief. To every person who suffers from Rheumatism I say take Urico-O at once and your sufferings will soon end."

FRANK HOWE, Baldwinville, N. Y. Anyone who doubts Mr. Howe's experience is invited to write him for further details.

The manufacturers have so much confidence in the remedy that they will gladly give a large 75c bottle of Urico-O free to all rheumatics who have never used it and are looking for a permanent, lasting cure for this most distressing disease. Address for free trial, Smith Drug Co., Syracuse, N. Y.

Urico-O is sold and recommended in Newark by Frank D. Hall, North Side Square.

IN THE SPRING TIME.

This following simple prescription, which anyone can prepare at home is said to restore the kidneys to perfect health, forcing them to filter all poisons and acids from the blood, overcoming Rheumatism, even in its worst form.

Any good druggist can supply these ingredients: Fluid Extract Dandelion one-half ounce, Compound Kargon one ounce, Compound Syrup Sarsaparilla three ounces. Shake these well in a bottle, and take a teaspoonful dose after each meal and at bedtime.

Your physician will tell you there is no better or safer mixture known to cleanse the blood and build it up, which everyone should do at this time of year. Readers of this paper can make no mistake by following this simple though valuable advice.

IN POLICE COURT.

Three plain drunks were fined in police court Thursday morning. Officer Dawson found Charles Harmon of Martinsburg, W. Va., prowling in the vicinity of the railroads Thursday morning after 1 o'clock and sent him to the prison. He was fined \$5 and costs and sent to the stone pile.

Charles Bippus, a Newark young man, was doing a black face stunt last night and was found by Officer Dawson at 9 o'clock acting suspiciously. Bippus had his face blackened and was carrying the heavy end of a billiard cue, a dangerous weapon if he had it in his possession for any nefarious purpose. His case is still under advisement in Mayor McCleery's court.

CIVIC IMPROVEMENT

This circular was sent out some time ago by the Civic Improvement Society. In many cases there has been no response, but we hope the citizens will help us in this work. The names of givers of prizes will be published later. The prizes as given below are offered and names of those who wish to compete MUST be sent in by May 15.

To this end that this naturally beautiful city may be made more attractive; that we may inculcate in the rising generation a love of civic order and cleanliness and an appreciation of out-door art, we invite you to join us in the movement for a more beautiful city.

The success of this undertaking depends not upon the work of any committee but upon the individual efforts of each member of the community.

To arouse interest and enthusiasm in this movement and to create a spirit of friendly rivalry—we wish to offer the following prizes, and ask you to give some one of these prizes or to offer a prize for any other special object which you prefer.

Prize No. 1.—For premises showing greatest improvement (not already awarded a prize) \$5.00; 2d, \$3.00.

Prize No. 2. For best kept vacant lot (may be cultivated as garden) first prize \$5.00; 2d, \$2.00.

Prize No. 3.—For best kept and most attractive alley, first prize, \$5; 2d, \$3.00.

Prize No. 4.—To boys and girls: For best work in helping to keep sidewalks, yards at home and school, clean—reports to be verified by parents and teachers—1st prize \$3.00; 2d, \$2.00.

Prize No. 5.—For best garden, (flower or vegetable) planted and cared for by boy or girl—1st prize, \$5.00; 2d prize, \$2.00.

Prize No. 6.—For best showing of Boston Ivy, or other vines planted on business houses or factory, or covered unsightly view—1st prize \$3.00; 2d, \$2.00.

These prizes are offered under the following conditions:

1. Names must be sent by May 15, to Mrs. Dr. Nichols, Granville road.

2. There must be at least 3 contestants for each prize to secure a reward.

Prizes will be awarded in September.

Those who are making any material improvement in their premises will materially assist this society by contributing before and after pictures.

The society offers a reward of \$5.00 for detection and arrest of flower thieves.

Names of givers of prizes will be published later.

The ministers of the city are asked to preach on the "Duty of the Citizen" on some Sunday in May.

WOMAN'S CIVIC IMPROVEMENT SOCIETY.

APPLETON.

A large crowd attended the services at the M. E. church Sunday evening and listened to a very interesting discourse by the pastor, Rev. L. I. Hart, on the subject, "The River of Peace."

The third quarterly conference will

be held at Chatham next Saturday at 2:30 p. m.

Mr. and Mrs. Calvin Neff of near New Way, attended services at the M. E. church Sunday evening.

The Bennington Township Sunday School convention will be held at Wesley Chapel one week from next Saturday at 2 p. m. and 7:30 p. m. All Sunday school workers are requested to be present and take part. Good speakers will be present. Music will be a special feature of the occasion. Don't forget the date, May 18.

Mr. and Mrs. Lola Vanfossen had a very thrilling experience last Saturday on their way home from the county seat. When near Arthur Wyeth's in crossing a bad place in the road the spindle of the buggy broke, letting the buggy down on the horse's heels, frightening him so that he ran away, throwing the occupants out, and completely demolishing the buggy and harness. With the exception of a few bruises, a bad scare, and a good shaking up, no one was seriously hurt. Mr. and Mrs. Fred Northrop were just in front of them and barely escaped being run over.

Miss Pearl and Mr. Everette Colville attended commencement at Martinsburg last Thursday evening and remained until Sunday visiting friends.

THE BEER THAT HAS THE CALL IS CHAMPAGNE VELVET

This is evidenced by Government records, which, like figures, do not lie; it is evidenced by the imperative necessity of enlarging materially what is already the largest brewery in Indiana.

This steady increase in the consumption of Champagne Velvet is due to the appreciation of the public that it is the best bottled beer that has ever been placed on the market; it is a popular tribute to the superiority of Champagne Velvet over all other beers.

Champagne Velvet is the beer for you—the beer for your home. One bottle will satisfy you of this.

May 9 In History.

1760—Nicholas Ludwig Zinzendorf, count, founder of Moravian Brethren, died at Herrnhut, in Lusatia; born May 26, 1700. Zinzendorf founded a religious settlement at Herrnhut for Moravian refugees. He conceived the idea of giving practical life to the ancient organization and became a preacher and bishop of that church. In 1729 he visited America and established missions at Germantown and Bethlehem, Pa. Two years later he returned to Europe and spent his last days at Herrnhut.

1862—Stonewall Jackson died near Richmond from a wound received at the battle of Chancellorsville May 3.

1864—"The Bloody Day," ten considerable battles fought, including Dalton, Ga.; Jarrett's Station (on Weldon railroad), Va.; Swift Creek or Arrowhead Church, Va.; and Clarks Mountain, Va., but excluding Spotsylvania, where there was a pause. Major General John Sedgwick killed by a sharpshooter.

1902—Dr. Henry Morton, noted American scientist, president of the Stevens Institute of Technology, died at Hoboken, N. J.; born 1836.

COLUMBUS PROBE

Columbus, May 9.—The recent purchase of 300 arc lamps by the new directors of public service furnishes a striking example of the extravagance which attended the management of the municipal electric light plant in years past. Comparing the price per lamp by the present directors with that paid by Fred J. Immel four years ago, and figuring on the advance in prices since that time, Allen W. Thurman, member of the city investigating committee, yesterday found that the city lost \$6,400 by that one purchase of 1600 lamps for the light plant. He took occasion to compliment the new directors on the prices they secured on the new lot of lamps.

AT OHIO MEDICAL

A number of people were in Columbus yesterday to attend the joint commencement of the O. M. U.—Starling medical colleges. Among the graduates was Carl J. Dillon of this city, who was given the M. D. degree from Starling Medical university. Mr. Dillon may locate in Newark, though he is considering several other openings, among them being an offer of a year's experience to a hospital. He may accept the latter offer.

Mr. Dillon was the youngest of his class and stood high in scholarship. He was a popular student and in his junior year was elected class president. He is a son of Mrs. Clair Hutchinson of 588 Hudson avenue, where he resides.

BISHOP LAYS BLAME OF ELOPEMENT ON SOCIETY.

BISHOP FREDERICK BURGESS.

PHOTO BY HATFIELD & BLACK

Hempstead, L. I., May 9.—From the pulpit that was his own up to a week ago and from the lips of Bishop Burgess, who was one of his strongest admirers, Jere K. Cooke, the unfrocked rector of St. George's church, was branded a traitor to his faith and the worst enemy of the girl with whom he eloped.

Finishing his attack on the rector, Bishop Burgess gave a direct blow to modern worship of wealth and declared with a show of deep feeling that "it is a dark and fearful arraignment that can be made of society, spelled with a big S." He said that as a church is so is the priest, and he enjoined his hearers to search into the recesses of their hearts to find whether they have concealed there some sin of which the world is not aware. None of the millionaires' colony heard the address.

SOCIAL SET GIVEN SURPRISE BY DEPUE SUIT FOR DIVORCE

Daughter of Prof. Yeardley Former Newark Music Teacher Refused to be Removed From Train so Doctor Grabbed Her Dog and Grip.

Newark people who know Prof. N. B. Yeardley, former teacher of music in the local public schools, as well as those who met his daughter, Mrs. Vera Depue when she visited her father in the Avalon two or three years ago, will be interested in the following press dispatch from Parkersburg, W. Va.:

Parkersburg, W. Va., May 9.—The "social set" of Parkersburg was given a genuine surprise Wednesday when it became known that Mrs. Vera Depue, wife of Dr. H. B. Depue, one of the best known physicians of the city, had entered suit for absolute divorce, alleging "cruelty and uncontrollable temper." The divorce proceedings were filed late yesterday afternoon by Judge J. G. McClure, Mrs. Depue's attorney. However, Dr. and Mrs. Depue have been appearing in society even more than usual of late.

Tuesday night Dr. Depue returned from Elizabeth, where he had been called as a witness in the Ledsoe murder case. Upon his arrival at his home he found evidence that caused him to believe his wife was making an effort to leave him. He rushed to the B. & O. station and found her comfortably seated in a coach, with a ticket to Cincinnati, the home of her parents. He tried to persuade her to alight and return home, but she refused, and finally the doctor appealed to a policeman to remove her by force. The policeman refused to act and Dr. Depue took the case in his own hands. It is said that he tried to pull Mrs. Depue from the train, but, failing, finally contented himself with taking her grip and small pet dog. The exciting episode at the B. & O. station attracted a crowd and has been town talk today.

Dr. Depue is one of the leading physicians here and comes from a prominent Wirt county family. His wife is the daughter of Mr. and Mrs. N. B. Yeardley, formerly of Newark, Ohio, but now of Cincinnati. Mr. and Mrs. Depue have been married less than four years.

A Hard Debt to Pay.

"I owe a debt of gratitude that can never be paid off," writes G. S. Clark of Westfield, Iowa, "for my rescue from death, by Dr. King's New Discovery. Both lungs were so seriously affected that death seemed imminent, when I commenced taking New Discovery. The ominous dry, hacking cough quit before the first bottle was used, and two more bottles made a complete cure." Nothing has ever equaled New Discovery for coughs, colds and all throat and lung complaints. Guaranteed by F. D. Hall, druggist. 50c and \$1.00. Trial bottle free.

Malta-Vita

A perfect breakfast is impossible without it and it's just as good three times a day. It gives you real nourishment and renewed vitality. For Malta-Vita is rich in nutrition—every nutritive element of the best white wheat and finest barley malt extract. The malt extract, mixed with the flaked wheat, converts the starch of the wheat into maltose, or malt sugar, makes it easy for even the weakest stomach to digest and adds a pleasing taste which cannot be found in grain foods containing sugar, foreign and adulterative sweetening agent.

Try Malta-Vita with cream or fruit.

MISS KIBLER AT GRANVILLE GIVES PIANO RECITAL

DELIGHTS A LARGE AUDIENCE AT RECITAL HALL WEDNESDAY EVENING.

Program Included Works of the Most Famous Composers—Other Village News.

Granville O., May 9.—The land is filled with piano players. We listen with patience, sometimes with a degree of interest, to their efforts. We are even compelled to admire the technique of a difficult performance, as we applaud a difficult acrobatic feat. But once in a thousand times there comes the pianist touched with the fire of genius and then, to use David Harum's expressive phrase, the audience sits up and takes notice. Miss Dorothy Kibler has the undeniable touch of genius, and the audience at her recital last evening in Granville, felt its power from the moment her fingers struck out the first chords of Schumann's Fantasie-stucke, to the last notes of the delightful program.

The program was admirably selected, giving predominance to Schumann, Chopin and adaptations of Liszt, with the fire and color of Moszkowski's, Caprice Espagnol as a closing number. There is a psychological law of nerve fatigue which renders it almost impossible to listen to an hour's performance upon the same instrument without a dulling of the auditory sense; but Miss Kibler succeeded in leaving her audience as delighted with the last number as with the first. It is difficult to analyze genius, but it involves of course in a pianist an infinite capacity for hard work. Her supple fingers, each of them a separate instrument of precision, capable of a blow like a hammer, or a stroke like the fall of a snowflake, or the lingering, clinging touch that makes the instrument ring like a human voice, have found their marvelous skill only through weary years of practice. Then there is a certain nervous force necessary to the artist and shown perhaps most unmistakably in her lightest and daintest passages. And most striking of all is the way in which the pianist of genius seems blended with her instrument and the selection to be performed until the three seem to constitute a single personality in which the performer, the instrument and the composition all are raised to a higher power.

To illustrate, Chopin's Etudes Opus 10, No. 12 and Opus 25, No. 2, are frequently performed in creditable style, awakening much admiration for the skill requisite to render them correctly. But as Miss Kibler interpreted them last evening, there was all of the brilliant technique usually required for their performance and in addition some quality of touch or rhythm which was like breathing a soul into an automaton or turning a pianola into a Padarewski. Scarcely in all her long and difficult program did Miss Kibler flinch from the high artistic ideal or fail of satisfying interpretation of her authors. Granville and Newark and Miss Kibler's teachers are to be congratulated with the brilliant young performer herself, upon last evening's achievement, of which the full program follows:

Schumann, Fantasie-stucke, Ges. Abends, Aufschwung, Warum, Grillen.

Chopin, Nocturne F Sharp Major, Etude op 10 No. 8, Etude op 10 No. 12, Etude op 25 No. 2, Valse E minor.

Schumann Liszt, Widmung.

Schubert Liszt, Du bist die Ruh'.

Wagner Liszt, Spinnerlied.

Liszt Etude, Waldesrauschen.

Moszkowski, Caprice Espagnol.

Mrs. S. A. Wells, mother of Mrs. Harry Shutts, had the misfortune to meet with a very painful accident at the home of her daughter, on West Broadway. In descending a flight of stairs she missed her footing, and fell headlong to the floor below. Strange to say, she escaped serious injury.

Mr. W. F. Chamberlin of Dayton, accompanied by an architect, arrived here on Wednesday for the purpose of looking over the fraternity house of the Phi Gamma Deltas and with a view of making some much needed improvements. The fraternity has greatly increased in numbers and for some time has been cramped for room. It is the intention to build quite an extensive addition to the handsome fraternity house, to be used as a dining room.

Several Cambridge musicians have received notices of the annual meeting of the Ohio Teachers' Association to be held in Granville, the seat of Denison university, June 19, 20 and 21. Great preparations for a splendid program which will be of great benefit to all music teachers, have been made and quite a number of Guernsey county musicians will be in attendance.—Cambridge Jeffersonian.

SCHUMANN-HEINK

Brings a Fine Pianist With Her—An Unexpected Treat for the Festival Patrons and Members.

If the unexpected is always more appreciated than the expected then Mme. Schumann-Heink, must look to her laurels, for in place of an ordinary pianist who will merely play accompaniments, she has engaged Miss Josephine Hartmann. Miss Hartmann will add several numbers to the program and will play them in her own inimitable style. Miss Hartmann is an American girl who studied abroad and after returning home made her American debut in New York with conspicuous success. Since that time she has played for many of the great singers who desired not only a good

MME. SCHUMANN-HEINK.

accompanist, but also a fine soloist. She has appeared with only the very greatest artists since her price as an accompanist is almost prohibitive. Owing to the price paid for Mme. Schumann-Heink (\$1100) Mr. Judson felt that he had a right to insist on an especially fine pianist for solo work and Miss Hartman is the result. Mr. Judson seldom finds time for congratulating himself, but he says that "he feels like congratulations are in order over this new piece of good luck."

The list of soloists for this Festival is extraordinary, and is worth placing on record here: Mme. Schumann-Heink, Miss Hartmann, Mr. Otto Meyer, Mr. Franz Wagner (cellist), Genevieve Clark Wilson, Cecil James, Mrs. Elizabeth Thompson Wilson, Ellis P. Legler, to say nothing of the

Chicago Symphony Orchestra, the Festival choruses and orchestra, and the directing of Mr. Judson and Mr. Nold.

The list of patrons and members is being added to every day and tickets are still on sale at A. L. Rawlings' music store and at Collins' drug store. Remember it costs only \$3 for a course ticket which gives you a reserved seat to each concert anywhere in the Auditorium, a single ticket to each concert will cost nearly twice as much and will not be reserved until after the season tickets.

PREVENTS MUCH DISEASE.

New York City, May 6—Probably no medicine ever sold to the public has met with such universal approval as Blackburn's Castor-Oil-Pills. They have been cleverly advertised to make the public familiar with their extraordinary pleasant, and effective qualities. A remedy for the common ills due to constipation, prevents much disease of the contagious kind and should be encouraged, especially when a non-secret, ethical preparation. TAYLOR HALL BENEFIT

Miss Florence M. King Presents Play May 17 Entitled, "Naval Engagements."

Friends and patrons of the entertainments given at Taylor Hall will be glad to learn of the movement to repair that popular little hall.

At the request of a number of friends of the Association, who felt that the community would be glad to assist in the decorating of the hall, a play will be given May 17, the proceeds for which will be used for this purpose.

The fact that Miss King is directing the play is sufficient assurance that the entertainment will be a good one—and one worth while attending.

"Naval Engagements," the title of the play, is a charming little society farce by Charles Dance.

The character of the play and the

personal of the cast give promise of this being one of the best of Miss King's productions. Great praise was accorded the burlesque "Shakespeare Water Cure", presented by Miss King last May in Taylor Hall. Her plays always draw the leaders among Newark people and no doubt a full house will greet "Naval Engagements" Friday night of next week.

Tickets are now on sale at the Y. M. C. A. and T. M. Edmondson's book store.

New Castle, May 9.—The Newark Molders won the opening game of the season in this city yesterday afternoon by a score of 1 to 0. The game was one of the best ever played in this city and while the Nocks came out on the losers' end, there was nothing but praise sung for their efforts. It was a game that was worth while. National league ball was played every minute and aside from two errors made by New Castle, one of which counted for the single tally made by the visitors, the contest was an ideal one.

Up until the eighth inning there was no scoring whatever. In that round Newark managed to pull one four baser from the fire. It was enough to win, as New Castle did not get a man on base after that Ascher the first man up for Newark in the eighth flew out on a grounder from third to first. Snyder was safe on the prayer meeting corner on a hard chance to Pitcher Steen. He went to second on an error by Hagen. Walls the next batter for Newark, plugged the ball for a beautiful single to left field, Snyder prancing home with the only run of the game. The next two men were retired on a double play. Catches of the most sensational order were made by Snyder in left. Walls in right and Schweitzer in middle. In the first inning a hard run and catch by the man with the cheese name saved a three bagger.

The contest was a pitchers' battle in which Ascher excelled to some small extent. He allowed the Nocks but two safe hits while three bingles were registered against Steen. No hits were for extra bases. Ascher and Steen were in exceptional form and considering the bad condition of the ground worked wonderfully. Steen struck out 5 while Ascher succeeded in making 6 New Castle men swing the air.

Winters, behind the bat played a great game for the Molders. His throwing to second base was of the

most perfect order. Twice he retired runners on great throws and they were tagged several feet from the bag.

Newark has a great team this season. You can bet your buttons on it.

Berryhill's nine this summer watched with great interest the work of the entire nine and failed to find a flaw in any of the men's actions. The team works like a well oiled machine, the players work together and I would not be surprised to find the Molders in the top division when the season ends, providing they play in the future like they did yesterday.

Several times during the game New Castle had men on bases but there was no scoring. The Molders will play in this city today also and Stoupe or Webb will do the box work.

Gygli, the man with the foxy name, enemy of all typewriters and linotype machines, put up a great game at first base. He did not have a hit but fielded well. The men who were hitting yesterday were few and far between.

The game by innings is as follows:
First inning: Snyder, the first man up hit the air three. Walls emulated his work, while Schweitzer also fanned on three. No runs.

Smith banged a high one to middle. It looked good for three bases, but Schweitzer made a hard run and nabbed the ball within a few feet of the fence. Hagen singled to short, the first hit of the game, but was easy at second on a throw by Winters while trying a steal. Pinkney closed the first stanza by an out to right.

Second inning: Wratten fooled out to Murphy. Havel went out to Burke on a long fly to right. Gygli drew a base on balls and Davis was also passed on four wide ones. Winters struck out. No runs.

Paddy Green flew out to left. Snyder made a sensational catch. Burke was safe on first on a hard chance.

Third inning: Ascher went out from catcher to first. He jumped the ball in front of the bag and thought it a foul. Snyder was out on a liner to Hagen. Walls was thrown out by Steen to first. No runs.

Schlatter for the Nocks fanned the air. Murphy went out on a fly to deep center. Steen struck out. No runs.

Fourth inning: Schweitzer walked. Wratten sacrificed him to second. Havel went out from Steen to Schlatter. At this juncture Schlatter juggled the ball and Schweitzer thought he saw a chance to get home. He was tagged by a quick throw by Schlatter to Murphy. No runs.

Smith singled to center for the locals. Hagen sacrificed. Pinkney

floor and Havel and he were caught up in a double. One run. Havel out to left. Steen out to pitcher to first and Schlatter out to second base. No runs.

Ninth inning: Havel flew out to right. Gygli was downed on a line drive to Kid Hagen. Davis out, second to first. No runs.

Murphy out, second to first. Steen struck out and Manager Smith dropped from the limelight for a day when he too went out. No runs.

A big parade preceded the game and although the weather was inclement, a large crowd attended.

In the contest for the diamond ring which the Advocate will give to the young woman who secures the greatest number of new subscribers for the Daily Advocate before 4 p. m. May 27, Miss Hannah Beaver of District No. 10 Thursday at noon stands first. The total vote accorded Miss Beaver in the adjoining table includes only the vote cast up to Wednesday night. Misses Alice Young, Ruby Seward, Martha McMillen and Mabel Sutton are tied for second place in the ring contest at noon Friday, while Misses Hays, Clark, Davis, Miller, Bentz and Varner are almost equal to them. Others who are given credit for new Daily subscribers in the ring contest are Misses Goff, Raysinger, Jones, Botts, Willey, Emery and Neff. The ring contest is very young and any one of the contestants by a little extra effort can win. A prize of \$10 goes

FOUNDER OF JAMESTOWN.

BUST OF CAPTAIN JOHN SMITH

This bust of the founder of Jamestown was modelled by Major General Baden-Powell, who presented it to Louth grammar school, where Smith was educated. Smith was born at Willoughby, in Lincolnshire, in 1580. He died in London in 1631.

Married Women

Every woman covets a shapely, pretty figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided, however, by the use of Mother's Friend before baby comes, as this great liniment always prepares the body for the strain upon it, and preserves the symmetry of her form. Mother's Friend overcomes all the danger of child-birth, and carries the expectant mother safely through this critical period without pain. It is woman's greatest blessing. Thousands gratefully tell of the benefit and relief derived from the use of this wonderful remedy. Sold by all druggists at \$1.00 per bottle. Our little book, telling all about this liniment, will be sent free.

A very light vote was cast Wednesday bringing the grand total to 145,974. Special ballots were voted by Misses Goff, McInturf and Hays, but the relative standing of the contestants remains the same as on the previous day, except that in District No. 7 Miss Hays advances to second place.

Several young ladies are making inquiries about the contest and there may be more contestants announced. There is still plenty of room and time for a young woman to go in now and win. Some of the sights that the Advocate's party of 11 will see this summer is mentioned in another column.

IT IS FOR LADIES, TOO.

They Can Stop Their Hair Falling Out With Herpicide.

Ladies who have thin hair and whose hair is falling out, can prevent the hair falling out, and thicken the growth, with Newbro's "Herpicide." Besides, Herpicide is one of the most agreeable hair dressings there is. Herpicide kills the dandruff germ that eats the hair off at the root. After the germ is destroyed, the root will shoot up, and the hair grow long as ever. Even a sample will convince any lady that Newbro's Herpicide is an indispensable toilet requisite. It contains no oil or grease, it will not stain or discolor. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and \$1.00. City Drug Store, Special Agent.

Changes on the B. & O. R. R. in Pennsylvania, West Virginia and Maryland:

Effective this date the jurisdiction of F. T. Moore, trainmaster, is confined to the main line from Green

Junction to Cumberland, Md., including branches.

Mr. H. R. Hanlia is appointed trainmaster covering the Mt. Pleasant branches, Connellsville yard and F. M. & P. district.

Increase in Wages.

The rates of pay for the section foremen and section men, and which includes all the maintenance of way force, was increased to take effect on May 1. This was the increase that was talked about last February, but the matter was adjusted but recently.

EXPOSITION STAMPS ARRIVE IN NEWARK

The Newark Postoffice has received a supply of the one-cent and two-cent stamps of the Jamestown Commemorative series, and the same have been placed on sale. Only a limited number will be sold to each person, as the supply only includes two thousand one-cent stamps, and six thousand two-cent stamps.

The series is of the same size as the recent special issues, which were found more satisfactory than the unattractive sheet stamps issued during the Chicago fair.

The one-cent stamp is green and contains in a semi-circular frame the portrait of John Smith, taken from an old engraving. In the upper corner are medallions in relief in oval frames of Pocahontas and Powhatan. Beneath the portrait of Smith is his name, together with the years of his birth and death, 1580-1631.

The two-cent stamp is red and contains a picture depicting the landing of the adventurers at Jamestown in 1607. On one side is a tobacco plant and on the other a stalk of Indian corn. Underneath a scroll are the words, "Founding of Jamestown, 1607."

PRESS AGENT

Denies That He Helped Miss Ashlyn in Stopping the Runaway Horse.

New York, May 7.—Suffering from nothing more than a slightly sprained arm, of which she is justly proud, Miss Belle Ashlyn, leading woman in a new vaudeville sketch entitled "College Chums," was congratulated

BELLE ASHLYN.

last week on her courage and presence of mind in stopping a runaway horse in Broadway.

Miss Ashlyn was in a Victoria with Miss Mabel Freyner when she saw a horse running away with a light wagon. Miss Ashlyn called to the driver to make after the runaway, and after a chase of a block the frightened animal was reached. Miss Ashlyn reached out and grabbed the horse's bridle holding on to the carriage with her other hand. Her arm was given a severe wrench, but she held on until the runaway came to a stop. The press agent denies that he lent any assistance in the capture.

THE W. C. T. U.

The devotional half hour was led by Mrs. Keller. The Scripture lesson was read from the 19th chapter of Psalm. The business part was next attended to with reports of superintendents. Three new members were received.

The subject of the day was "The Early Training of Young Children." This was a splendid subject and many took part in the discussion.

Next week's meeting will be very interesting. "How to Treat the Ringing" will be the subject. Come. Adjourned with Union's benediction.

Nothing Like a "Star" Plug

The man who drives a wagon or the man who rides an automobile finds there's nothing like a chew of "Star" to satisfy tobacco hunger. On nearly every automobile ride "Star" is part of the outfit. Those who take their pleasure in this way demand the best and only the high quality of

STAR

is good enough for them. No other chew is so wholesome, so clean, so rich, because no other chew is made of such choice, ripe leaf.

No chew is so economical as "Star" because its full-bodied leaf is elastic and lasting. A 10c. piece of "Star" will "out chew" 10c. worth of any other kind sold—and give far greater satisfaction in the bargain.

"Star" plugs are full 16 oz. weight and honest value. "Star" sales equal those of any five other brands.

PERSONAL MAGNETISM

So much desired and so necessary to all in every walk of life, can hardly go hand in hand with a rough unhealthy skin. Ordinary toilet soaps will generally cleanse—but at the expense of the complexion—clog the pores, roughen and irritate. Cacti Soap removes all impurities, opens the pores and gives life to the skin by feeding the cuticle with the oxygen it needs most.

Cacti Soap is not the by-product of a packing house nor does it contain any animal fat. Made wholly from imported vegetable oils that can in no way injure the most tender skin. Pure Soap—nothing but soap—and peculiarly enough is just as good in hard water as in soft. Costs little but does unmeasured good.

BIG SHIPMENT OF FINE STOCK

The Cloverdale Stock Farm on Wednesday shipped one of its largest shipments of A. J. C. C. Jerseys, to any one breeder that ever left Newark, and this shipment went to one of the most noted breeders of Ohio, L. D. Bailey of Tacoma, Belmont county, proprietor of the Belmont Stock Farm, and this is his second purchase from this farm.

While this is the largest shipment from Cloverdale Stock farm, it is the shipment of the highest quality that has ever been put on the market.

There is included in this shipment six daughters of "King of all Kings", No. 58169—the number of one of the best St. Lambert bulls in Ohio.

There is also included in this shipment 17 cows and heifers and one young bull, "Dagmar's Jubilee", No. 75304. With the exceptions of two head, this shipment has all been bred on this farm, and from most all of the farm's show herd blood.

The dams of most of this shipment were sired by "Comley's Brer Pogis", No. 33129, a pure St. Lambert bull.

The buyer of this stock, on account of the high quality is assured of good profit, as all of the herd are from record-breaking stock on milk tests.

The proprietor of the "Cloverdale Stock Farm" is J. W. L. Mothershead, and he deserves great credit for bringing up his stock to this high standard.

BROUGHT AGAINST BUCKEYE LAKE FISHERMAN AT LOCAL OPTION ELECTION.

Defendant Gave Bond for His Appearance Before Justice of the Peace Lee S. Lake.

Jerry Wilson, a well known fisherman at Buckeye Lake, was brought in Wednesday night and taken before Justice Lake. He is charged with illegal voting at the local option election in Jacksontown a few days ago. Wilson furnished bond in the sum of \$50, for his appearance May 20 for trial before Justice Lake. It will be remembered that the election resulted in favor of the wet by a majority of eight votes. The arrest of Wilson means a contest.

NO TRIP LIKE ONE TO THE EXP.

JAMESTOWN A SCENE OF BEAUTY IN SETTING OF HISTORY OF UNITED STATES.

Some of the Sights Advocate Guests Will Enjoy This Summer—The Contest is Now On.

Not the reverberations of cannons boom; not the shrieking of shells; not the clashing of sabres, nor the rattle of musketry in war; rather the celebration on Hampton Roads this summer of the founding of the first permanent English speaking settlement in America by a nation to be known as the Jamestown Ter-Centennial Exposition.

Some say expositions are old, and we concede the point; yet old things often become new with a peculiar interest, which fact applies in its extremity to the subject before us.

With this new awakening of that bit of history of the first settlement at Jamestown, its Captain John Smith, and its Pocahontas, so easily revived in the memory of the oldest inhabitant, comes a new idea in the exposition world. Luckily, the fathers of this exposition sought and found a field unexplored with success springing up over its entire expanse, leaving only the labors incident to inviting and entertaining their guests.

"Echoes of war" symphonies, and mate and inanimate, in all their glory, past and present, resplendent in historical values, telling the old story of our struggles as a nation and pointing the future as no other exposition has or can.

The Jamestown Exposition has been adopted by Congress, with our President in the role of sponsor, because of its historical and educational significance. No other effort, past or present, has approached it in scope and magnitude along these lines, and the wise men of the nation were not amiss in their acts, which have so thoroughly popularized it.

Both arms of our service, the naval and military, will keep open house for seven months on the exposition grounds. Know you what this means? Would you see the choicest battle-ships, cruisers, torpedo boats, etc., of the nations of the world swinging at anchor in review on the bosom of Hampton Roads in front of the town exposition grounds from which echoes from the Merrimac and Monitor were heard in every clime? Would you see this greatest of armadas bedecked in its holiday attire in honor of famous admirals and generals, and listened to the reverberations of its thundering, earth-shaking welcome? Would you behold the awe-inspiring grandeur of a hundred shafts from brilliant searchlights piercing the clouds, while vari-colored lights from ships' bridges wig-wag their silent messages? Then come to the Jamestown Exposition.

Would you see the pick of the world's fighters on foot in saddle and on caisson? Would you hear the hoof beat of cavalry, the clash of sabre, the thundering of artillery rushing into action, the tramp, tramp of deploying thousands in support of the van, the shrieking of rifles and the rolling of drums, the fluttering of colors, the shrill notes of bugle calls, echoes of '76 and '61? Then come to the Jamestown Exposition.

Would you experience association with our nation's defenders on land and sea? Would you feel the thrill of patriotism on hallowed ground? Would you feel the presence of the greatest living commanders of armies and navies? Would you feel the satisfaction of having seen the greatest naval, military and historical exhibition ever created? Then come to the Jamestown Exposition.

Would you know with that experimental knowledge, which comes only from seeing and hearing and feeling, that the best vintage of 300 years, of your country's history has been bottled up on Hampton Roads to await your coming. Go; and going, fail not under penalty of regret to remember that in going there lies in your pathway Washington, D. C., which city every citizen of the United States, who can, should visit. Richmond, once the capital of a Confederacy; Philadelphia, Baltimore, and from these great cities the traveler may journey on the bosom of waters which have no superiors—the broad expanse of the Chesapeake bay, and the historically charming Potomac and James rivers with their echoes of war, on either bank from city to sea. Then journey from Washington to Richmond to the Jamestown Exposition by river, threading its way through fields and forests, which have echoed and re-echoed the rifle-shot of Indian, Colonial, Revolutionary and Rebellion here in spots where Yank and Reb have met as Greek meets Greek, and the strains of "Dixie" and "Yankee Doodle" have been wafted to and fro by forces of cheer. There is so much unwritten, the fascinating story is scarcely begun. There is Yorktown, where Lord Cornwallis surrendered; the great Dismal Swamp; Fortress Monroe (the greatest stronghold in America) Appomattox, and a dozen battle

fields where blue and gray fought equally sincere and well.

The Advocate this summer will send ten young ladies on this splendid trip to the Exposition. Traveling in a Pullman train to Washington the guests of this paper will spend a day in the Capital and then enjoy a daylight ride down the Potomac river to the Exposition, where a week of sightseeing will be enjoyed. The contestant receiving the largest vote will name her friend for a chaperon and will be given a trip to New York, after visiting the Exposition.

To the contestant who secures the most new daily subscribers by May 27 (1 p.m.) the Advocate will give a pretty diamond ring and to the one who is second in this ring contest will be given \$10.

A contestant who entered the race two days ago is already almost up with the leaders. It is not too late. Right now is the time. Talk with your friends and talk to the Advocate about it.

And decide for yourself.

Here is one case of it: Charles W. Manville, carpenter, of 24 South Fourth street, Newark, O., says: "I have found Doan's Kidney Pills to be all that they are claimed to be. They cured me of a bad case of backache and inaction of the kidneys, brought on by the grip. I was laid up for some time. My kidneys seemed to be sluggish and the secretions were irregular. At the same time I suffered terribly with pain in the back over the kidneys. There was a constant, dull aching varied with sharp twinges of pain that would strike me at all hours of the day and night. I tried different remedies without effect and had nearly given up hope when I began using Doan's Kidney Pills, bought at Crayton's drug store. The result was a cure and a decidedly lasting cure. In 1896 I told of my case in a public statement and now that eight years have passed I can point to my own experience and say that Doan's Kidney Pills make permanent cures."

A CURE FOR ECZEMA AT LAST

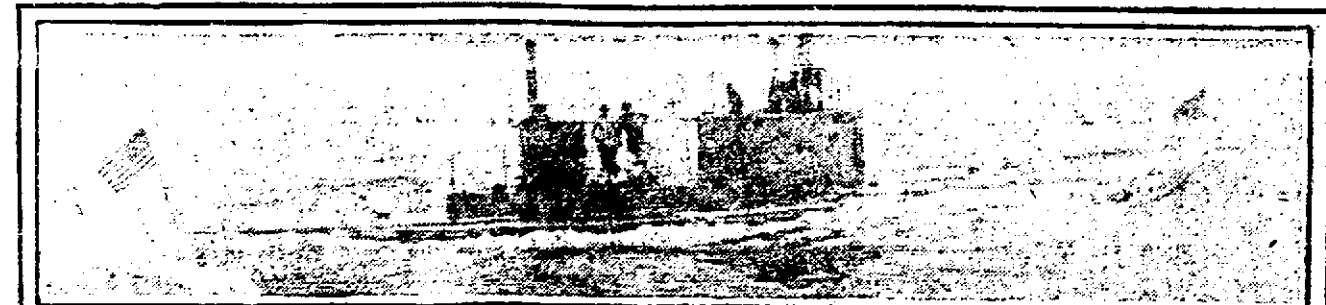

Remarkable Cures Now Reported—A Sample Bottle Free.

Eczeema and kindred diseases have often been declared incurable, but the cures now being received regarding D. D. D. Prescription indicate that a remedy has at last been found which really will and does remove this curse from thousands of sufferers.

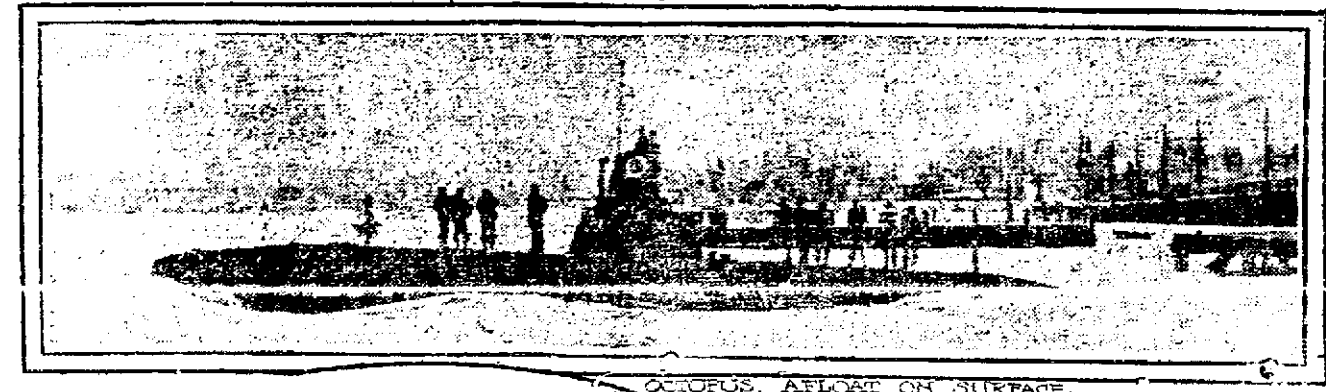

Letters from every part of the country indicate that people are being cured of eczematous diseases by the simple external application of D. D. D. Ointment. A few drops applied give INSTANT relief. Then gradually the skin is cleansed and finally not a vestige of the disease remains. The cures appear to be permanent, at any rate no cases of a recurrence of the disease have been reported.

You can get this remedy at Hall's drug store, or a sample bottle for 10 cents direct from the D. D. D. Company, Suite B, 112-120 Michigan Ave., Chicago.

SUBMARINE TESTS START AT NEWPORT.

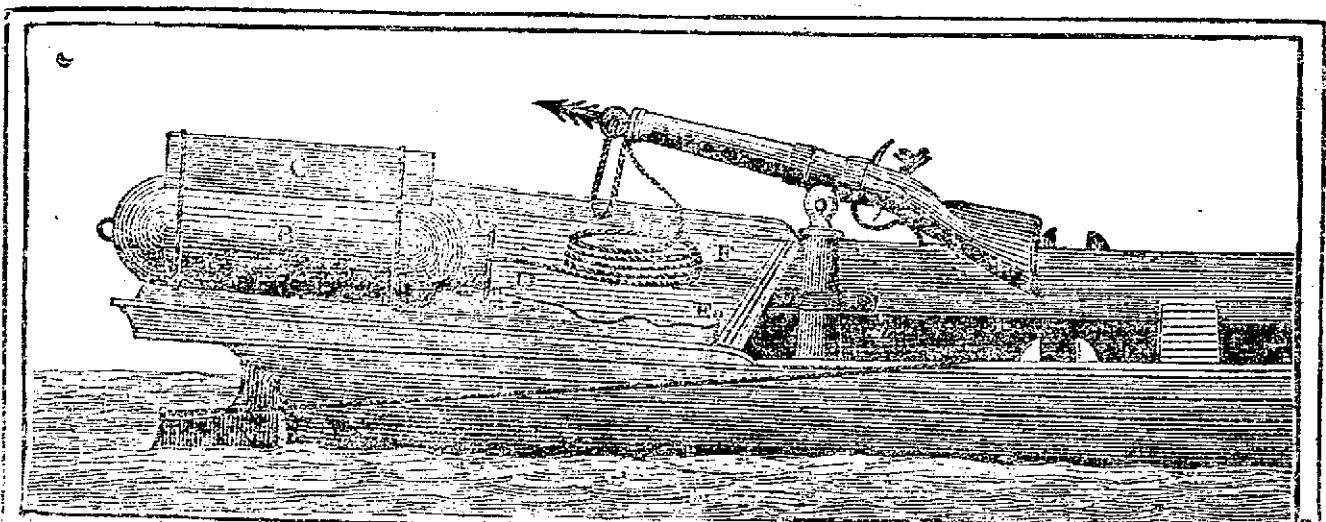

The Submarine Torpedo Boat Lake.

OCTOPUS, AFLOAT ON SUKPAPE.

NEWPORT, R. I., May 9.—Finding much to do in the way of arranging preliminaries, the Navy Board which met here this week, to conduct the important competitive tests of the Lake and the Octopus, two types of submarine boats built in this country, made little real progress. Before the real test can be held it will be necessary to standardize the propellers, and this, it is believed, will take two days. Each boat has a large crew that is drilled to the second, so that the best there is in the boats will be brought out.

PROPHECY OF FULTON FULFILLED.

ORIGINAL TORPEDO BOAT WITH HARPOON GUN DESIGNED BY FULTON

New York, May 9.—Prophecy rests in every line of a book yellowed by century in which are set forth the views of Robert Fulton on the submarine warfare of the future. Attention has been called to the old volume just at this time when tests of under sea craft are in progress off Newport under the direction of the United States Navy. Hardly an element exists of the art of attack and defence now used in that warfare beneath the waters but was recognized by the genius to whom the achievements of steam navigation are due.

Coincident with the celebration of the centenary of the day on which Robert Fulton's first steam boat traversed the waters of New York harbor his almost clairvoyant insight is verified. The volume in which he outlines his plans is entitled "Torpedo War and Submarine Explosions," by Robert Fulton. It was printed in 1810.

Not only did the inventor foresee practically all that would come to pass in warfare, but by a hundred years he anticipated the arguments which are now being made by the advocates of peace against the use of the submarine vessels.

Were he today face to face with the members of The Hague Peace Conference he would be in a position to meet every argument which they might make against employing craft which, by sending out torpedoes, deal out death unseen.

His pamphlet is in the form of an unofficial report directed to James Madison, President of the United States. In its opening pages Mr. Fulton invites them to follow the origin and progress of torpedo warfare in order that they might "form a correct judgment on the propriety of adopting it as a means of our national defence."

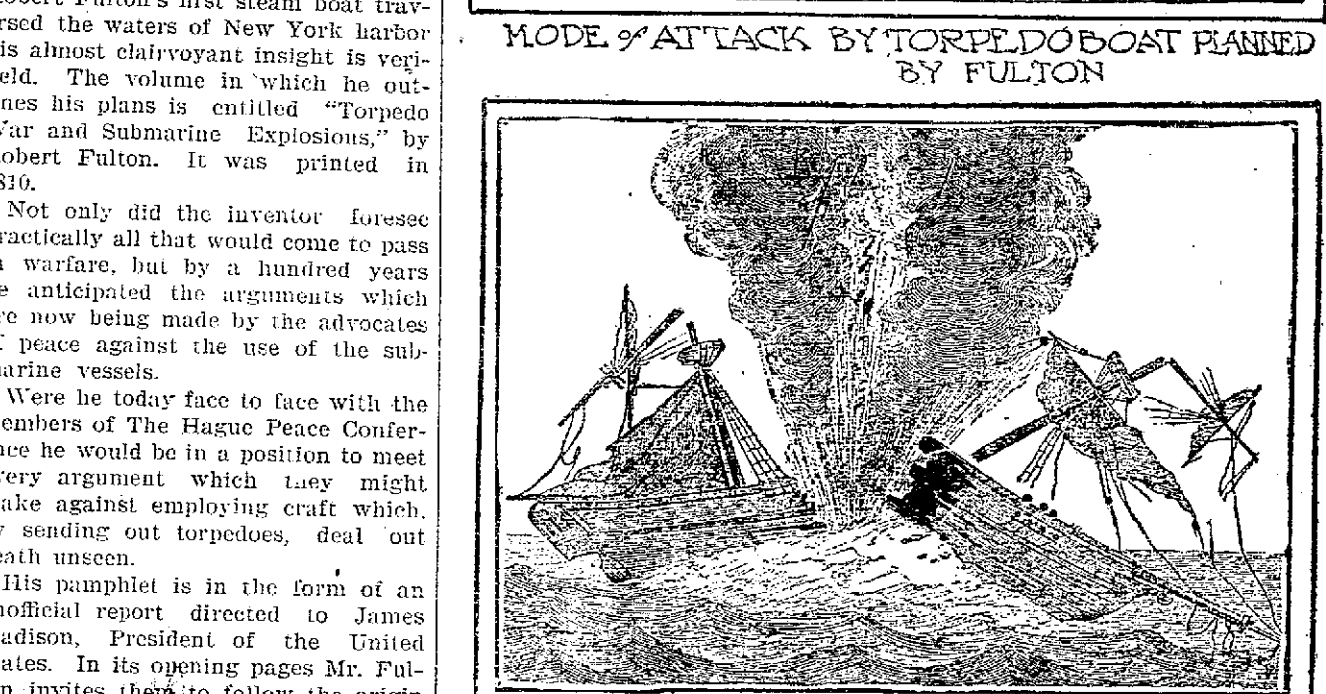

He speaks frankly of the difficulties and embarrassments which he had undergone and gives the impression that he realizes that the campaign for the adoption of such a method of warfare will be beset with obstacles of every kind.

Although he does not mention it in this work, he never was able to put into practice the far reaching schemes for the building of submarine boats which he had in mind.

Robert Fulton was working in England under the patronage of two noblemen when, after much negotiation, he induced some of the authorities to witness his torpedo experiments. The first of these was made on October 15, 1805, upon the brig Dorothea, and it is described in full in this remarkable pamphlet.

Its first illustration represents the brig being cut literally in two by a tremendous explosion which proceeded from the torpedo which had been devised for the experiment.

FRENCH FLAGSHIP, THE KLEBER, IS IN PORT.

THE FRENCH CRUISER KLEBER.

NEW YORK, May 9.—After a three month's cruise in the West Indies, the French cruiser Kleber, flagship of the Atlantic division has arrived in port. The new numbers 500, Admiral Thierry, who is commander of the French ships in the waters adjacent to the United States coast, was visited on board the cruiser yesterday by the French consul and officers from the navy yard. The Kleber will start for the Jamestown Exposition on May 18.

TWO CENT FARE

Figures Compiled From Report Just Issued by Cleveland and Marietta Road.

In view of the suggestion made frequently that the railroads in Ohio have been agreeably surprised at the increased business resulting from the two cent fare law, the first state in which such a law has been in operation for a full year, figures compiled from a report just issued of the Cleveland and Marietta railroad are instructive.

This railroad operates entirely within the state of Ohio, so that its results bear directly upon the issue.

These statistics show that during the year 1906, the number of passengers carried increased 46,726, or 13 1/2 per cent over 1905. There was also an increase of 751,536 in the number of miles passengers traveled, or 12 4-10 per cent, with an increase of 1 3-10 per cent in the train mileage.

Notwithstanding the increase in train service and in the number of passengers carried, the passenger per passenger per mile of 29-1000 of cent. This was due altogether to a reduction in the average earnings per passenger per mile of 29-100 of a cent or 12 2-10 per cent, as a result of the two cent fare.

It was possible to make a slight reduction in the cost of operation, but notwithstanding this the greater decrease in the rate received caused an increase in the loss per passenger per mile 36-100 of a cent to 53-100 of a cent, or nearly 50 per cent, and, applied to trains, this loss means over 22 cents for every mile run by passenger trains during the year.

Under these conditions it is a question as to how long the company will continue the present passenger train service at the reduced fares.

STATE TEACHERS' ASSOCIATION TO HAVE BIGGEST SESSION EVER

Perhaps the most important session of the Ohio Teachers' Association yet held will be that just announced for June 25 to 27 at Paris, Ky. The secretary of the executive committee, Supt. Edw. M. Van Cleave, of Steubenville, has sent out to the teachers of the state the following letter:

At the next session of the Ohio Teachers' Association will be presented the report of the School Revenue Commission appointed last year to secure information of such reliable character that the Commission's findings will have weight when presented to the people and to the legislature. This Commission was requested by the Tax Commission appointed by the governor to make a presentation, which has been done. The question is paramount in Ohio and some drastic action is looked for at the next session of the legislature. It behooves us to be watchful and active that the schools and the teachers be not forgotten.

The report of the commission referred to above takes up the time of the entire morning session; the principal address being made by Hon. Wade H. Ellis, attorney general of the state.

The program which appears below is certainly a well constructed one and provides something of interest for all classes and grades of teachers, and for others interested in public education. It is refreshing to note that a newspaper man has been drafted into service and will give the teachers a view of things educational from a new standpoint. A school board president is announced and an eminent lawyer: a woman noted for philanthropic work in Cincinnati and the gifted Miss Jane Addams of the famous Hull House, Chicago, will give the humanitarian and a feminine touch to the program.

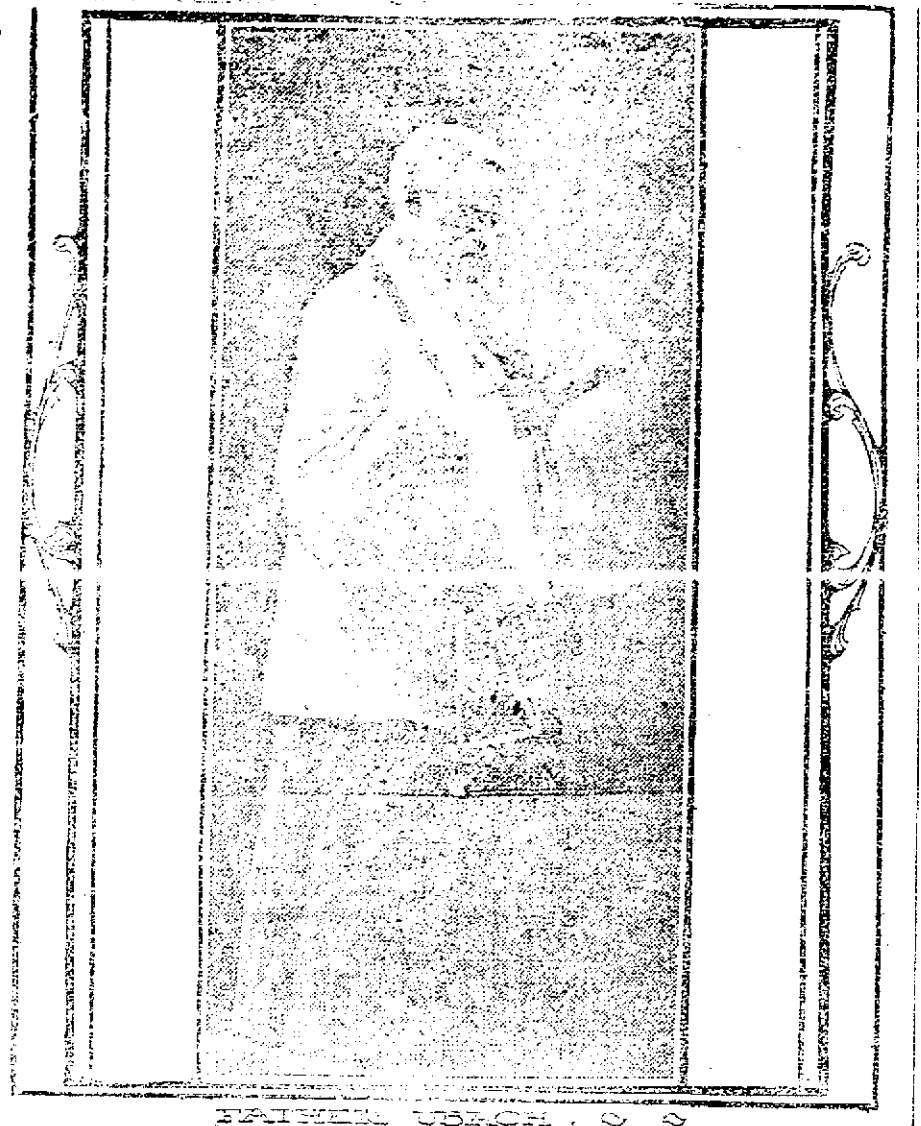

An attendance exceeding even that of last year, when the record was broken is confidently expected.

SUNDAY SCHOOLS

MET AT CHATHAM LAST SATURDAY IN SEMI-ANNUAL CONVENTION.
Secretary A. M. Dixon Conducted the Round Table Talk—Interesting Exercises.
The semi-annual Sunday School convention of Newton township met at Chatham, Sunday afternoon and evening of May 5. The afternoon session was devoted to round table and a short talk by President McDaniel. In the round table conducted by County Secretary A. M. Dixon, many difficult problems for the betterment of the Sunday school were discussed. The chief part of the discussions, however, centered around the following: The session in which the officers and members are turned, conscientious, God-fearing workers, will be anything but a failure.
The afternoon session was composed largely of the officers and workers of the Sunday school. In the evening, however, everybody turned out and the house was filled to the comfort limit.
The evening exercises opened with a short song service. The first number on the program was a carefully prepared paper by Mrs. Charles Wilson of Newton Chapel, on "Winning Souls in the Sunday School." It was full of good thoughts from start to finish and we think ought to be published and it might have a wider circulation.
Secretary Dixon talked for a few minutes concerning the county convention, which is to be held at Kirksville the latter part of May. He would like very much to see every school in the county represented.
In the business session the following officers were chosen for the ensuing year: President, Mr. Cary Pound of Newton Chapel; secretary and treasurer, Miss Daisy Pierpont of Chatham; teachers' training secretary, Will H. Miles of St. Louisville; home department secretary, Mrs. Dr. Rouse of St. Louisville; primary department secretary, Mrs. S. D. Lyons of Vanatta.
The program was closed by a splendid address by the Rev. W. H. McDaniel, president of the county association. Among other things he dealt with the relation of the Sunday school to the home and the nation. If parents would only say to their children, "come, we will go to the Sunday school," the problem of keeping the child in the Sunday school would be practically solved. He further sees in the Sunday school one means at least whereby our vast foreign population may be reached and Americanized.
When a man makes a fool of himself more than once over the same woman his case is hopeless.
